

It Doesn't Work Out
People who figure out a small
income may be made to support a
large family generally know a great
deal more about it than the
do about human nature.

DO YOU BANK BY MAIL?

There are many of our customers whom
we rarely ever see. Some of them we
never have seen.

These customers make frequent deposits,
but send them by mail. They may live
many miles from Appomattox, but
Uncle Sam's postal service makes it con-
venient for them to bank with us.

We promptly acknowledge receipt of all
deposits received by mail, and render pe-
riodical statements, thus enabling depos-
itors to keep close check on their ac-
counts.

If it is not convenient for you to call on
us regularly, why not try banking by
mail? You will be pleased with our
service.

MAKE it easier to get around and
you make healthier and hap-
pier communities. No one any longer
questions the worth of the automobile
—or begrudges any legitimate ex-
pense connected with it.

But millions of car owners are rebelling at
the idea that running an automobile has got to
mean waste.

Every now and then you hear a neighbor
complain that "he doesn't seem to have much
luck with tires."

Send him to us.
The minute a man begins to question the
service his tires are giving him, he's ready to
listen to reason.

Our business is built on the principle that
the only way to get better tire service is to get
better tires to start with.

That's why we have taken the representa-
tion for U. S. Tires.

U. S. Tires have a reputation for quality.

Built up through years of creating better
tires. Such as the straight side automobile tire,
the pneumatic truck tire

It is not by chance that U. S. Tires are made
by the oldest and largest rubber concern in
the world.

We are proud to represent U. S. Tires in
this community.

Every Inch of the Bates Steel Mule is Thoroughbred

The United States government by means of the Depart-
ment of Agriculture, has been looking into the tractor ques-
tion, and its bulletins clearly prove that the satisfied tractor
owner—men who say that the tractor has paid—are men
who own the BETTER CLASS of tractors. The suc-
cessful man has learned years ago that he can't get some-
thing for nothing. No one can. The reason the BATES
STEEL MULE costs more is that it is worth more. Skilled
factory procedure, quantity production and the most modern
Machinery enables us to save money at every turn, yet the
BATES STEEL MULE cost slightly more in the beginning
to build but considerably less in the long run to own. It's
just another case where a seemingly higher priced article is
at cheapest to own when you come to actually USE it.

The Bates thoroughbred quality comes not from mere
claims, but from what's put into it. Every part that goes to
make up the BATES STEEL MULE is put there by long
field experience. There isn't a part that isn't time-tried and
tested. There isn't a part that experience hasn't dictated
the shape and size of; and in it all there isn't one superfluous
part, nor one part that isn't capable of standing up under
twice the strain it gets in actual use. These are things
experience and practice have distracted. The BATES comes
to you as a fulfillment of your desire for a tractor that will
endure. Price is what we pay for a thing. Value is what
we get out of it. Consider your tractor from what you will
get out of it, consider how many working days you have
when the ground is wet, consider the operations where you
can't afford to jack your seed bed, and consider how con-
stantly and economically they must be performed even in
rush times, you will then see why the BATES STEEL
MULE is the biggest value offered in any tractor on the
American market today.
